REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the present claims are allowable over the closest prior art to Okumura et al. (US 5700593) and JP 10-162338.

Both references fail to teach or suggest the claimed method requiring sputtering of the "anisotropy-allowing layer" taught therein wherein "a larger number of sputtered particles having the direction component along the direction of the magnetic anisotropy incident on the substrate than sputtered particles not having direction component along the direction of the magnetic anisotropy to be allowed." The prior art fails to teach or suggest a motivation to modify the deposition of the "anisotropy allowing layer[s]" taught by Okumura and JP 10-162338.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Holly Rickman whose telephone number is (571) 272-1514. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on (571) 272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
